EDUCATION

Skill safari

Alchemyst Fullstack Developer Program

Coimbatore, Tamilnadu

Aug 2023 – Apr 2024

Bannari Amman Institute of Technology

Bachelor of Engineering in Mechatronics

Sathayamangalam, Erode

Jun 2017 – Jun 2021

- Cumulative GPA : **7.75/10.0**

WORK EXPERIENCE

Software Engineer (Front-end Developer)

Economizing Futura

Jul 2024 - Present

Bengaluru, Karnataka

- Worked on developing a dashboard project utilizing CRUD operations.
- Implemented a chat-bot for enhanced user interaction.
- Collaborated with UX/UI designers to implement pixel-perfect designs and ensure a seamless user experience.
- Optimized website performance and loading speed by employing best practices such as lazy loading and code splitting.
- Developed REST APIs using Node.js and Express.js, with MongoDB as the primary database.

Freelancing

Economizing Futura

May 2024 - Jun 2024

- Integrated APIs to connect front-end applications with backend services, providing smooth data flow and functionality.
- Created dynamic and interactive web applications using React's component-based architecture

Dreambridge

- Implemented Users and Educators profile Updating Screen

TECHNICAL SKILLS

- **Programming Languages:** Javascript, HTML5 ,CSS3
- **Frontend Frameworks and Libraries:** React.js, TypeScript, Redux Toolkit ,Tailwind CSS, Bootstrap
- **Backend Technologies :**Node.js, express.js
- **Developer Tools:** VS Code, Git, Vercel, Netlify, [Github](https://github.com), Sourcetree

PROJECTS

Aenini | *React.JS, React Native, Tailwind CSS, Redux Toolkit*

- Developed components and the profile update screen in React Native.
- Used **Chart.js** for displaying data in the dashboard, creating visual representations of user metrics and analytics.
- Implemented Redux Toolkit for state management, ensuring efficient data handling and centralized state management across components.
- Employed Tailwind CSS to facilitate the creation of responsive and visually appealing designs, aligning with contemporary design standards and best practices.

Economizing Futura Web Application

A Modern Web Platform Showcasing Services and Solutions

- **Purpose:** Built a responsive and dynamic web application to highlight Economizing Futura's comprehensive software solutions.
- **Frontend:** Developed using **React.js** for a seamless, user-friendly, and interactive interface.
- **Styling:** Designed visually appealing and responsive layouts with **Tailwind CSS**, adhering to modern design standards.

- **Backend:** Utilized **Node.js** to implement a robust and scalable server architecture.
- **Features:** Integrated key functionalities, including:
 - * Service showcase and detailed descriptions of offerings.
 - * Interactive client testimonials to build trust.
 - * A secure and functional contact form for inquiries.

React-MovieApp | *React.JS, Tailwind CSS, Redux Toolkit, Firebase*

- Designed and developed a movie recommendation web application using React.js, Redux Toolkit, Tailwind CSS, Firebase, and the TMDB API.
- Utilized the TMDB API to fetch real-time movie data, including details such as titles, ratings, genres, and trailers, enhancing the app's functionality and user experience.
- Utilized Redux Toolkit to establish a robust state management solution, promoting code maintainability and improving development efficiency.
- Integrated Firebase for authentication and enabling secure user authentication.

React-Youtube | *React.JS, Tailwind CSS, Redux Toolkit, Firebase*

- Integrated the YouTube API to fetch real-time video data, including titles, thumbnails, descriptions, and view counts, enriching the app's functionality and user experience.
- Implemented live chat functionality allowing users to engage in real-time conversations while watching videos.
- Utilized Redux Toolkit to establish a robust state management solution, promoting code maintainability and improving development efficiency.
